SKILLS

- **Languages:** Python, Java, C, C++
- **Frameworks:** HTML and CSS, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn
- **Tools/Platforms:** PL / SQL, MySQL, Oracle database 19c, Power BI, Excel
- **Soft Skills:** Problem-Solving, Team Player, Adaptability, Quick Learner

PROJECTS

Cardiovascular Disease Prediction Model– Using Machine Learning | [GitHub](#) Feb 2025 – Apr 2025

- Built a machine learning system to predict cardiovascular disease (CVD) risk using structured clinical CSV data.
- Performed data cleaning, preprocessing, feature scaling, and EDA; handled class imbalance using SMOTE.
- Trained and compared Logistic Regression, Random Forest, and XGBoost for 3-class risk classification (Low / Medium / High).
- Implemented XGBRegressor to predict continuous risk scores with $R^2 \approx 0.91$ and achieved best accuracy of ~66% using XGBoost for classifying data into 3 categories low, mid and High Risk. •
- **Tech:** Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn.

Coal Consumption Analysis Dashboard India – Using Excel | [GitHub](#) Feb 2025 – Apr 2025

- Developed an **interactive Excel-based dashboard** to analyze state-wise and sector-wise coal consumption across multiple years.
- Performed **data cleaning, preprocessing, and transformation** using Pivot Tables, filters, and formulas to ensure accurate analysis.
- Visualized trends using **bar charts, line graphs, stacked columns, and geographical heat maps** to identify high-consumption regions and enabled dynamic insights through slicers for year, state, and sector-based analysis to support data-driven decision-making.
- **Tech:** Microsoft Excel, Pivot Tables, Power Query, Data Visualization, Data Analysis.

TRAINING

CodeQuery: The Ultimate PL/SQL & Data Science Bootcamp-([Certificate](#)) Jun 2025 – Jul 2025

- Hands-on training in PL/SQL, Oracle APEX, Python analytics, EDA, ML basics, and database-driven application development. Completed capstone project “**Lab Inventory Tracker**”.
- Worked on **real-time database operations**, including procedures, triggers, and transaction handling for inventory management.
- Built interactive dashboards and reports using **Oracle APEX and Python visualizations**. (username - dhgoyal001@gmail.com , Pass- 12306503)
- **Project Live Link:** [Lab-Inventory Tracker](#)

CERTIFICATES

- Introduction to Machine Learning - [NPTEL](#) Oct 2025
- Data Structures and Algorithms - [NeoColab](#) Dec 2024
- The Bits and Bytes of Computer Networking Google – [Coursera](#) Sep 2024
- C Programming Language - [Cipher Schools](#) May 2024
- Responsive Web Design - [FreeCodeCamp](#) Nov 2023

ACHIEVEMENTS

- **Solved 200+ Problems on LeetCode, GeekforGeeks and other Platforms:** Oct 2025
- **Secured 5th Rank in “Code-A-haunt” Hackathon: ([Certificate](#))** Feb 2024
Among 2k+ participants

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; **CGPA: 8.67** Since August 2023
- **Dr. RPSD Senior Secondary School** College Road, Barnala
Intermediate; **Percentage: 92.4** April 2022 - March 2023
- **Sarvhitkari Senior Secondary Vidya Mandir** Anaj Mandi, Barnala
Matriculation; **Grade: A+** April 2020 - March 2021
